

SlipStream Software continues addition to re-seller channel with appointment of Encore Systems.

September 26, 2007 Alpharetta, GA, SlipStream Software the leading provider of root cause analysis for lean/process improvement for manufacturers is pleased to announce the appointment of Encore Systems of Medina (Cleveland), Ohio as a re-seller for the mid-west for the complete SlipStream Software root cause product line.

“We are quite pleased at the caliber and depth of experience that Encore Systems bring to the SlipStream Software channel. We are starting to see that organizations like Encore understand the unique value that we bring to their customers and this sets them apart from their competitors.” says Gary Hopkins President and CEO of SlipStream Software.

“Encore Systems prides itself in bringing to our customers solutions that are not only unique to the industry but truly solve real-world problems. We see Slipstream’s root cause software as something that customers can easily implement and will benefit from quickly” says Jim Brundage, President of Encore Systems.
