

SlipStream Software appoints Sylum Incorporated as southeast re-seller

September 15, 2007 Alpharetta, GA, SlipStream Software the leading provider of root cause analysis for lean/process improvement for manufacturers is pleased to announce the appointment of Sylum Incorporated, a Georgia Corporation based in Jesup, Georgia as a re-seller for the southeast for the complete SlipStream Software root cause product line.

“We are very pleased to announce that Sylum Incorporated has joined the re-seller family of Slipstream Software’s root cause products. Sylum has proven itself in understanding the Manufacturing Intelligence sector and delivering on time solutions for their customer base.” says Gary Hopkins President and CEO of SlipStream Software.

Kevin Totherow, president of Sylum Incorporated states, “Sylum Incorporated is the Southeast’s premier supplier of best of breed manufacturing intelligence solutions and we feel that SlipStream Software’s root-cause products fit that profile. Our customer base is actively involved in lean/six sigma process improvement programs. In addition to being a tool for solving immediate production bottleneck problems, SlipStream’s products can become an integral part of our client’s methodology for process improvement. ”
